REMINDER: FHA TOTAL SCORECARD & FHA CONNECTION UPDATES

Summary: FHA is changing the definition of the Required Investment field in its TOTAL Mortgage Scorecard and FHA Connection (FHAC) technology, **effective for case numbers assigned on or after August 22, 2016**. This definition change will provide a more precise representation of the borrower's investment into the transaction.

Current Required Investment Definition:

- Borrower Funds to Close Required: Lenders must enter the total amount that the borrower is required to pay at closing. If the borrower is receiving cash back, the amount should be a negative number.
- *Uniform Residential Loan Application*, Section VII, Details of Transaction Line p; Cash from/to Borrower.
- **New Required Investment Definition (for case numbers assigned on or after August 22)** □ Borrower's Investment into the Transaction: If the borrower is receiving cash back, the amount should be a negative number.
- *Uniform Residential Loan Application*, Section VII, Details of Transaction Line i, Total Costs:

TOTAL Mortgage Scorecard Implementation

FHA has notified its Automated Underwriting System (AUS) vendors of this change. The AUS vendors are in the process of making the adjustments to their calculations for submission to the TOTAL Mortgage Scorecard. There may be a small population of loans that have case numbers assigned prior to August 22 that have not previously been scored by the TOTAL Mortgage Scorecard. In these instances:

- A mortgagee's AUS vendor may not know which calculation to use until after the loan with a case number has been scored for the first time, and the AUS vendor obtains the version number that indicates the case number assignment date range; and
- Mortgagees may receive messages from their AUS vendor that the loan needs to be resubmitted and re-run through the TOTAL Mortgage Scorecard in order to obtain the correct result from the TOTAL Mortgage Scorecard.

FHA expects that this scenario will only be applicable to a small number of transactions.

FHAC Implementation

For case numbers assigned on or after August 22, mortgagees should ensure that the amount of the Required Investment entered into FHAC's Required Investment field on the Insurance Application screen is calculated using the new definition.

VA FEES POLICY UPDATE

Summary: The CMG VA Fees Policy is corrected to reflect that a pest inspection fee is an unallowable fee unless VA has specified a State Deviation. Circular 16-14-10 States VA treats pest inspection fees the same as any other unallowable fee.

In addition, [Chapter 8](#) of the VA Lender's Handbook states Additional fees attributable to local variances may be charged to the veteran **only** if specifically authorized by VA. The lender may submit a written request to the Regional Loan Center for approval if the fee is normally paid by the borrower in a particular jurisdiction and considered reasonable and customary in the jurisdiction.

The VA also posts a table with details of the current allowable state and territory fees and charges deviations (exceptions) from fees normally considered unallowable:

Note: In addition, the VA Fee Policy is being updated per previous announcements to remove links to Itemization Worksheets and these worksheets will be removed.
