Overview

CMG Mortgage, Inc., dba CMG Financial, NMLS #1820, (CMG) will allow HPML and HPCT (aka QM Rebuttable Presumption) loans as outlined below. CMG will follow Qualified Mortgage (QM) and Ability to Repay (ATR) requirements.

Definitions

Higher-Priced Mortgage Loan (HPML)

A Higher-Priced Mortgage Loan (HPML) is a loan secured by a primary residence with an Annual Percentage Rate (APR) that exceeds the Average Prime Offer Rate (APOR) by:

- 1.5% or more for non-Jumbo loans
- 2.5% or more for Jumbo loans
- 3.5% or more for Subordinate liens

FHA, VA and USDA loans do not need to be tested for HPML.

Primary residences are subject to HPML. Second homes and investment properties are exempt from HPML.

Higher-Priced Covered Transaction (HPCT)

A Higher-Priced Covered Transaction (HPCT) is a loan secured by a dwelling that is a Qualified Mortgage (QM) Rebuttable Presumption loan, which means the APR exceeds the QM Safe Harbor APR threshold. The APR on a HPCT loan exceeds the APOR by:

- 1.5% or more for First Mortgages
- 3.5% or more for Subordinate liens (and First Mortgages that are exempt from the first bullet: Small Creditor Portfolio Loans, Temporary Balloon-Payment and Balloon Payment QM Loans)

An FHA loan is a HPCT if the APR exceeds the APOR plus 115 basis points plus on-going Mortgage Insurance Premium (MIP) rate.

Primary residences and second homes are subject to HPCT. Investment property loans that are primarily for a business purpose are exempt from HPCT.

Average Prime Offer Rate (APOR)

The Average Prime Offer Rate (APOR) is an APR based on average interest rates, fees, and other terms on mortgages offered to highly qualified borrowers. The APOR is published by the Federal Financial Institutions Examination Council (FFIEC).
